Allowed Claims

Applicants would like to thank the Examiner for allowing claims 1, 3-10, and 27.

Rejection of Claims under 35 U.S.C. § 102(b)

Applicants respectfully request that the Examiner reconsider the patentability of claims 12-16 in light of the foregoing comments. Claims 12-16 were rejected under 35 U.S.C. § 102(b) as allegedly being anticipated by Astle *et al.* (U.S. Patent No. 3,713,985, hereinafter “Astle”). Without acquiescing to the arguments presented in the Office action concerning Astle, the Applicants do not believe that Astle teaches Applicants’ claimed invention. Claim 12 recites “a first engagement piece on a first wall that is identical to a first engagement piece on a second wall.” However, Astle does not teach a first engagement piece on a first wall that is identical to a first engagement piece on a second wall. Astle only teaches a device with male members or edges for interlocking (reference characters 18 and 19 of Figures 1 and 2) on one side of the device and female members or grooves for interlocking (reference characters 20 and 21 of Figures 1 and 2) on the other side of the device. In contrast to Applicants’ claimed invention, Astle does not teach a device with a male member present on one side that is identical to a male member on the other side. Nor does Astle teach a device with a female member on one side that is identical to a female member on the other side. Accordingly, Astle does not provide the claimed element and fails as an anticipatory reference under 35 U.S.C. § 102(b). Consequently, Applicants respectfully request that the Examiner reconsider and withdraw the rejection of claim 12, and claims 13-16 depending therefrom, under 35 U.S.C. § 102(b).
